JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Friday - 3 December 1961

25X1 1. [] Mr. Julian Landau, Legislative
Reference Service of the Library of Congress, called and requested brief
25X1 unclassified biographic data on the heads of the 80 foreign Communist
Parties. Landau has received a request from a congressional office for
this information.

[] I have discussed this
25X1 with [] who is checking to see what information of this sort
is readily available.

25X1 2. [] Boyd Larson, of the Comptroller's office,
called to say they had pulled together the raw material on Agency expen-
ditures for research on the Soviet and Chinese Communist Parties. (This
project was conducted as a result of an inquiry from Senator Fulbright to
the State Department. The Agency is gathering this material on the
assumption that Senator Fulbright will make a direct request to us for
Agency figures.) I suggested to Larson that he hold the information in
this form until a specific request from the Senator is received.
